About

Full stack developer specialized in JavaScript and TypeScript, I have hands-on experience working with modern technologies as React, React Native, Node.js, MongoDB and GraphQL. I actively seek out new technologies and stay up-to-date on industry advancements.

Experience

Senior React Developer - Minds For Integrated Solutions March 2020 - Present

TypeScript, React / Next.js, TailwindCSS, React Query, Framer Motion

Work within a cross functional team, collaborate to solve technical problems

Lead mentoring sessions with modern technologies as Docker, Node.js

Full Stack Developer (MERN) - Kindi - Remote April 2020 - July 2020, November 2020

TypeScript, React / Next.js, Material UI, Storybook, Node.js, GraphQL / Apollo, Firebase, Lerna

Build dashboards, design and consume backend services

Work with Test Driven Development, unit testing, integration testing and code review process

React Native Developer - Care 24/7 April 2019 - March 2020

TypeScript, React native, Reanimated, D3

Work within a cross functional team

Integrate RESTful APIs, Real Time Communication and data visualization

Full Stack Developer (MERN) - Arcast FM December 2018 - April 2019

React Native, GraphQL / Apollo, Node.js, MongoDB, AWS, Webpack

Implement caching and offline support for the application audio player

Tech Stack

Languages JavaScript, TypeScript, ReasonML / ReScript

Frontend React / Next.js, React Native, Framer Motion, TailwindCSS, Jest, WebRTC, PWAs

Backend Node.js / Express, GraphQL / Apollo, Web Sockets, MongoDB, PostgreSQL, Redis, Docker

Tools Linux, Git / GitHub, Vim, Parcel, Snowpack, Figma
